Cesar Ernesto Castro

Email: ce.castro@outlook.es

Professional Summary

Experienced Software Engineer with 10+ years of experience leading engineering teams and delivering enterprise-grade web applications. Proven track record in full-stack development, architectural planning, and cross-functional collaboration. Highly skilled in mentoring developers, conducting code reviews, implementing scalable solutions, and driving agile development practices. Demonstrates deep technical knowledge in frontend and backend technologies, server infrastructure, and DevOps workflows.

Professional Experience

Technical Team Lead | Cikume Software | Remote | April 2019 - Current

- Led the design and development of 3 modern React, Next.js, and Angular-based applications, leveraging Redux for state management and Jest for testing.
- Built and maintained backend services using Node.js (Express) and RESTful Web Services, ensuring scalable and reliable integrations.
- Managed dependencies and project workflows using npm and version control with Git.
- Facilitated sprint planning and task distribution across a 10-person engineering team.
- Acted as a bridge between the technical team and other stakeholders, translating technical concepts to ensure alignment with business goals and accelerate project delivery.
- Conducted code reviews and enforced best practices for maintainable, secure, and testable code.
- Mentored junior developers through technical coaching and pair programming.
- Integrated technologies (GraphQL, Hasura) to streamline data access workflows.
- Improved system scalability and performance through architectural refinements.
- Created and maintained technical documentation for code base and systems, reducing knowledge transfer overhead.*Technologies: React, Angular, Tailwind CSS, Node JS, Nest JS, GraphQL, PostgreSQL, Hasura*

Front-End Developer | Paradise Solutions | El Salvador | Sept 2016 – April 2019

- Maintained and updated high-traffic international travel websites.
- Executed front-end enhancements using HTML5, CSS3, jQuery, JavaScript
- Tested code to identify and fix bugs, ensuring the website or application functions correctly and efficiently.
- Supported SEO and social media content optimization to increase engagement.
- Provided system administration and desktop IT support for internal teams.

Technologies: HTML, CSS3, JavaScript, WordPress, Bootstrap, JQuery, MySQL

Web Developer | Webboxinteractive | El Salvador | Dec 2007 – Sept 2016

- Developed e-commerce and corporate websites using various technologies including JavaScript, Node Js, Laravel, CodeIgniter, and WordPress.
- Administered RedHat Linux servers, managed user access, firewalls, and mail servers.

- Collaborated with US-based stakeholders to implement requested server-side changes.
- Provided multi-platform email support and executed site updates via Dreamweaver.
- Delivered responsive UI designs using Bootstrap and custom CSS components.

Technologies: JavaScript, NodeJS, WordPress, HTML, CSS, Java, PHP, Laravel, MySQL

Technical Skills

- **Frontend:** React, Angular, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, Bootstrap, jQuery
- **Backend:** Node.js, Nest.js, PHP, Laravel, CodeIgniter, Java
- **Databases:** PostgreSQL, MySQL
- **APIs & Data:** GraphQL, Hasura, RESTful APIs
- **DevOps & Tools:** Git, Agile Methodologies, Linux Server Administration (RedHat, Apache, DNS), Docker, Kubernetes
- **Content Management:** WordPress

Soft Skills & Leadership Attributes:

- Technical leadership and mentorship
- Architectural design and system scalability
- Cross-functional collaboration and stakeholder communication
- Agile development methodologies
- Problem-solving and critical thinking
- Strong written and verbal communication

Languages

- English – Advanced level.

Education and Certifications

- Computer Science Engineering, Universidad de El Salvador (2001–2008)
